

COOKIES TEXT

Cookies are small files stored on your computer or mobile device. They are used widely online and allow websites to work more efficiently as well as provide information about your visit to the website. Browsers usually accept most cookies automatically but you can disable them in your browser settings.

Cookies are encrypted and do not give access to your computer or store any personal information of any kind.

They are vital for the running of our services on our websites and apps. Without the use of cookies, parts of our websites would not function.

We use cookies to help us identify which of our readers have a subscription in order to access content and benefits they are entitled to on the website. We use these cookies to tell if you're logged in to your account, which allows extra functionality, such as making comments on stories.

When you access and interact with our services, cookies may collect certain information about those visits. For example, in order to permit your connection to our websites, our servers receive and record information about your computer, device, and browser, including potentially your IP address, browser type, other software or hardware information, and your geographic location.
